

Chronicles of Young scientists, Jan 2011

I am pleased to introduce this issue of “Chronicles of Young Scientists” (CYS). *CYS* is a quarterly multidisciplinary biomedical journal. It is an international medium of interaction between young scientist, students, academicians, and industrial personnels. *CYS* publishes innovative papers, reviews, mini-reviews, rapid communications, and notes dealing with all branches of Pharmaceutical Sciences, Medicinal/Analytical chemistry, Biotechnology, and Bioallied sciences. Articles specially related to the conception, design, production, characterization, and evaluation of drugs and their delivery systems *in vitro* and *in vivo* is given preference. Areas of particular interest include pharmaceuticals, pharmacy practice, drug regulatory affairs, pharmacology, synthesis of novel medicinal compound, analytical sciences, phytomedicine, nanotechnology, physical pharmacy, and microbiology as applied to pharmaceutical, medical and biomedical sciences.

CYS is an official publication of “Organization of Pharmaceutical Unity with BioAllied Sciences (OPUBS)” www.opubs.com. OPUBS is registered under “The Society registration act, 1860.” The association has been made to bring along the people from different spheres of pharmaceutical and bioallied sciences so as to give them a common platform to express their ideas and to move along in a well-directed manner. This association includes all different branches like pharmaceutical sciences, analytical/ medicinal chemistry, biotechnology, medical sciences, biomedical sciences, and other allied sciences.

Our Mission

- To provide a platform and collaboration to interact, exchange information and ideas on different fields of pharmaceutical and bioallied sciences to give new heights to bioresearch and education.

- To provide a forum for exchange of thoughts on social, economic, and educational ideas.
- Provides training to students to become “Master Students.”

Our Activities

- To undertake conferences, lectures, and other activities that would be responsible for the overall student development.
- To hear the voice of young researchers/students to assist them and guide them at every step of their career.
- Group discussion on different aspects of profession and research and to discuss them with higher authorities for proper action and implementation.
- To enhance professional ideals and standards.
- To bring about effective linkage between technical institutions industry and society.
- Contest and competitions among students.
- Counselling and education/profession discussion.
- Jobs and education help/guidance.
- Book publications.
- Membership of association enhances the self-confidence and self-esteem of teachers and students.
- To update and motivate students and members through training and information dissemination.

OPUBS along with Pharmatutors jointly announced an article contest “PharmaShine 2011.” More details can be found at www.opubs.com/contest. Articles are submitted online and judged for novelty. Three best articles will be awarded and published in “Chronicles of Young Scientists.” The participation in PharmaShine 2011 is free, so all students and guides are requested to participate in it. Professionals and students can join us on our facebook account www.facebook.com/opubs for regular jobs, news, and announcements. We are here to support the community and also expect the same from you. For any query and proposal, please feel free to contact us.

We request researchers and scholars to utilize *CYS* for their research, to search and cite relevant articles. They are also encouraged to submit their quality research and critical reviews. We will try our best to make *CYS* as an outstanding journal in the years to come, with active assistance of promising and innovative authors and full editorial

assistance, to ensure a rapid turnaround of the submitted articles.

We hereby invite suggestions and proposals from readers and senior scientists on special theme-based issues. The special theme issues will have most articles on that theme and they will be edited by an invited guest editor, who would be an expert in the field.

The members of the Editorial Board and the Journal Committee will be happy to discuss and analyze the time-

to-time progress of CYS. I request all readers to refer the subscription of the journal to their institutional libraries, so that it can be made available to students and scientists from diverse disciplines. For more details, you can visit www.cysonline.org.
